

The A-SPEED difference

In this current market situation coupled with fast-changing business landscape, high operational cost is causing decision-makers to shrink their IT budget and halt valuable business innovation. As IT Infrastructure plays an increasingly critical role in business operations, A-Speed ensures the backbone of each business to be reliable and scalable, allowing organizations to leverage on our resources and expertise for cost effective and cutting-edge technologies enhancement.

What We Do

01 A-Speed **LISTENS** to you.
We offer technology consultancy to help you identify real business needs; propose cost-effective and best-of-breed solutions; develop IT roadmap for resources and infrastructure planning; formalize IT policies and procedures for better accounting of IT assets and adhere to compliance regulations.

02 A-Speed **IMPLEMENTS** for you.
We have the right people, processes, systems, skills and technical architectures ready to design and build a reliable and scalable infrastructure for you, be it System & Network, Telecommunications, Cloud & Security solutions.

03 A-Speed **MANAGES** for you.
We acts as your IT Manager to administrate your IT Infrastructure essentials, minimize compromises to unforeseen security threats and maintain system availability for business continuity, including 24/7 service support, 1800 toll free hotline, onsite/remote support, hardware loaner, coupled with a powerful ticketing system and knowledge management system.

05 A-Speed **SHARES** with you.
Upon every successful of project implementation, A-Speed's knowledge transfer sessions aims to empower clients with deeper understanding of the products characteristics / proposed solutions for better operations management. The clients will be imparted with both theoretical and practical skills where they can manage their basic functions in IT environment with minimal assistance.

04 A-Speed **SAFEGUARDS** for you.
A-Speed has the expertise to ensure you are mitigating risk and ensuring data security at all time. Our compliance management services cover you on security policy review, user access controls, automate internal processes, risk and change management and more.

About A-Speed

Established in 2003, A-Speed Infotech Pte Ltd (A-Speed) first embarked on the journey of a computer and network system integration service provider. Growing from a small team to the current team of enterprise-level product specialists, A-Speed have since built a reputable and reliable name in this technology space. Through the years of support from many key industry principals, the business model has extended to become an authorized dealer of several IT products.

A-Speed seek more than being a vendor to you. We strive to be your best Ideal IT Partner in providing WorryFree Support to take care of your IT Infrastructure, leaving you more time to focus on core business functions.
