

How to beat **RANSOMWARE**

Recently, a significant number of organizations have been affected by a virulent and fast-moving new ransomware variant generally referred to as "Wanna" (a.k.a. WannaCry, Wanna Decryptor and more).

Q: Is it sufficient just to back up your data?

Q: Why is traditional anti-virus software no longer effective?

Q: What can be done?

We bring to you **Sophos Intercept X** where it adds next-generation signatureless technologies on top of your current endpoint security to provide you a complete, layered protection.
